POROTHERM BRICKS

STONE HOUSE

>>> 75 lakhs

- It Warms up Easily in Winter and Keeps Cool in Summer. Stone houses have their unique heat system. ...
- It Provides Sound Insulation. Stone houses also provide sound insulation due to their structure. ...
- They are Reliable Structures Against Disasters Such as Fire and Earthquakes.

>>> 1 core

Tamil Nadu's Chettinad

Every house built following Chettinad architecture had an imposing entrance with elaborately carved wooden doors and panels. On either side of the entrance would stand two huge raised platforms called thinnai. The main door traditionally opened into a massive hall with columns made of elaborately carved wood
